

# Graham Freimanis, The Pirbright Institute

## Research Interests:

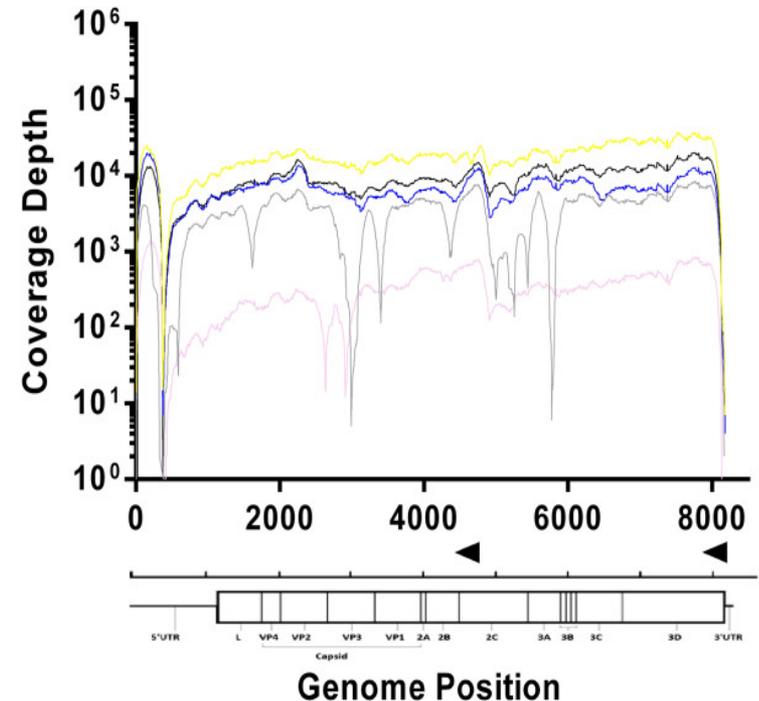

- Molecular epidemiology
- Viral evolution
- Molecular virology

## Current Research:

- Foot and Mouth Disease virus (FMDV)
- Pest de Petits Rumnants/PRRSV

## EpiSeq: Use of NGS to:

- Develop tools for molecular epidemiology
- UK2001 FMDV outbreak
- Characterise viral quasispecies

Taken from Logan & Freimanis et al, 2014
